Providing quality child care to Kansas families

Weather Cancellations

Our policy here at the child care facility has always been that we would close due to weather conditions if both USD 308 and USD 313 closed. This year we were faced with our first dilemma with that policy.

Our concern when and if we close due to weather is for the safety of our staff and parents on the roads. We have several staff members and parents who drive in from surrounding communities so safety is our number one concern.

If for any reason we close the facility due to weather we will complete the following steps by 5:00am to ensure we communicate to all parents:

- Post on KWCH12, KAKE10, KSNW3

- Post on our website (www.abundantlifechildcare.com)
- Place a message on our answering machine (620-662-1300)

The news stations have several options for you to get the information on closings; you can watch the televisions for all listings, you can go to their individual websites and find their listings or you can sign up for text alerts and they will text you for specific closings.

If you have any questions on how this process works please feel free to call the office at 620.662.1300.

FACILITY CLOSINGS..

1. Posted on all 3 news stations
2. Posted on answering machine (662.1300)
3. Posted on www.abundantlifechildcare.com

Valentine's Day Parties
Monday, February 14, 2010
2:00pm

Please sign up at your child's classroom for "treats" you would like to bring!

Teachers! Teachers!

There have been a few adjustments made in a few of the classrooms where teachers have either requested to move to other classrooms or we have added new team members. If any of these adjustments affect your child's classroom you will have received a letter in your child's cubbie located outside of their classroom

"Sponsor a Staff"

Over the past couple of months we have been working with a great program here in town that offers consulting services to child care providers to assist with early childhood behavioral development and intervention. They can provide expert consultation on childhood behavioral development to both parents and care givers, if the child exhibits behavioral or mental health issues they can observe the child and work with the provider and parents to provide suggestions for intervention strategies, and if necessary they can assist with referrals. One of the greatest advantages we have with this program is they can equip our teachers with the skills they need to best serve children under their care.

The core teaching comes from a program called Conscious Discipline. It's a comprehensive program that integrates classroom management with social emotional learning, utilizing everyday events as the curriculum. It empowers teachers to consciously respond to daily conflict, transforming it into an opportunity to teach critical life skills to children.

We are excited for the opportunity for these trainings to be offered to our teachers. This training does come at a small price and we are looking for sponsors to help sponsor our teachers to participate in these life changing trainings. There are 8 sessions that cost \$50.00 per session per staff member. If you would like to assist with one session, a half of a session or multiple sessions please fill out the bottom portion of this form and turn in a check or cash with this form to the front office.

Contact Information

If any of your contact information has changed please contact the office and give us that information.

YES! I want to Sponsor a Staff

Here is my donation for: \$ _____
